WORK EXPERIENCE

2026	Camera Trainee Jazmine Flowers Music Video Joined the camera team at short notice as a last-minute crew member for a fast-paced, one-day music video shoot for artist Jazmine Flowers. Quickly familiarised myself with the camera and grip equipment, working efficiently under pressure while maintaining constant awareness of the schedule and requirements of each setup. Responsibilities included assembling and moving equipment, preparing kit ahead of each shot, and supporting the wider camera team to keep production running efficiently and on schedule.
2026	Overland Short Film Freelance Sole filmmaker on a commissioned documentary-style short film for a University of Cambridge Master's Architecture student. Responsible for pre-production, cinematography, sound, editing, and final delivery. Planned in under a week, filmed in one day, and edited to a tight deadline while documenting the construction and launch of a floating pavilion.
2025	Real Estate Advertisement South of France Freelance Drone shoot for a real estate advertisement, featuring a property in the South of France. Using my DJI Mavic Pro, this project strengthened my drone piloting skills around architectural subjects. Analysing the property's features over time, I was able to determine the most suitable flying style that would highlight the building's beauty, place it comfortably in the surrounding countryside, while remaining true to the owners vision.
2024	Social Meida Videography Ned Spencer BOOMTOWN Festival Freelance Promotional videography for a one hour DJ set at BOOMTOWN Festival. Using my Nikon D3500, I shot portrait content for DJ's Instagram profile. Restricted by lack of access I could only scout the location and stage when the previous act was performing. This tested my quick thinking skills and problem solving as there were elements of unpredictability during the shoot, such as automated lighting.
2023	Real Estate Advertisement Casa Rampiconi Freelance Drone cinematography for luxury holiday rental marketing film using DJI Mavic Pro.
September 2022 - current	Bush Hall, Londo Bar Worker Working in a fast-paced hospitality venue, developing teamwork, communication, iterpersonal and problem-solving skills while supporting high-value live evetns.
